OBJECT

Have the most stones in your mancala after all of the stones on one side of the gameboard are captured.

GAME SETUP

Players sit opposite each other with the long sides of the gameboard facing them. The 6 small cups on your side of the gameboard belong to you; your large scoring cup (mancala) is to your right.

Each player takes 4 stones of every color, for a total of 24 pieces. Each player then places 4 stones in each of his or her 6 small cups.

HOW TO PLAY

Choose a player to go first. On your turn, pick up all of the stones from one of your cups. In a counter-clockwise direction, place one piece into each cup, including your mancala, but not your opponent's mancala. After you do this and capture any stones (see below), your turn is over. The game continues with players alternating turns.

Capturing Your Opponent's Stones

If you place the last stone of your turn into an empty cup on your side of the board, you capture all of the pieces in the cup directly across from it on your opponent's side of the board. Take the captured stones and the capturing stone, and place them in your mancala.

HOW TO WIN

As soon as all the small cups on one side of the gameboard have been emptied, the game is over. The player with the most pieces in his or her mancala wins the game!
